

# BREAKTHROUGH WOMEN IN BUSINESS PROGRAM

## SUCCESS

WANT TO SET YOURSELF  
UP FOR A SUCCESSFUL  
YEAR AHEAD?

## BREAKTHROUGH

WOMEN IN BUSINESS  
PROGRAM

## STRATEGIES

LOOKING FOR A FRESH  
APPROACH AND NEW  
STRATEGIES?

## DESIGNED EXCLUSIVELY FOR WOMEN IN BUSINESS

We are excited to offer this new transformative 6 month Business Growth Program designed exclusively for Women in Business.

Business has changed over the last few years, the economy is challenging, costs have increased and small to medium businesses and larger companies have all been affected in some way. We have created this new program as a direct result of the challenges Kiwi businesses face, and what you need to do *now* to be successful.

The unique framework of this dynamic program is customised and makes it an ideal training and coaching program for busy business owners or managers, franchises and nationwide companies.

This is a 'Done With You' transformative program, meaning it's a combination of learning, implementing, improving, getting results, and being part of a supportive group of women who are like minded and get where you are at.

### Business Owners

*This is ideal for YOU if you are motivated to get ahead this year, want to transform your income and results, and are open to learning new strategies that work for New Zealand businesses.*

AND/OR

### Women in Teams

*Ideal for professional women in your TEAM, as an internal training program for communication, building confidence, time management, working with different personality types, providing world class customer service and leadership development etc. This program can help develop future leaders, uplevel results and retain a high performing team.*

## WHAT THE PROGRAM IS:

You will learn the step by step systems to continually bring in new clients, how to streamline your business, set up processes to save time each week to get more done, build strong supportive teams around you as you scale and grow and how to future proof your business. We can't do things the way we used to, and with changes to the economy it is time to look at what you or your team can do to build a better 2024/2025.

We're here to help you be successful, create amazing results, and feel great about the level of success you're achieving.
